### VITAL QUESTIONS DISCUSSED

Mayor of Cleveland, O., introduces the Commoner to vast and enthusiastic assemblage—Folk, of Missouri, is among notable speakers.

New York, Sept. 1.—Such a welcome as seldom in this country's history has been accorded to a private citizen was given to William Jennings Bryan at Madison Square Garden on Thursday in the celebration of his return from a year's absence, spent in foreign travel.

As the guest of the Commercial Travelers' and Trust League Mr. Bryan was greeted by more than 20,000 persons, who filled the great structure from floor to upper gallery. At the same time the streets and avenues out-

land of my birth more proud of my citizenship than before.

"I cannot use a better phrase than the old simple one—I thank you." Governor Folk was given an ovation, and it was several minutes before he could speak. When he finally secured silence, he asked the audience to be as quiet as possible, otherwise none of the speakers, not even Mr. Bryan himself, could be heard. The mention of Mr. Bryan's name called forth renewed cheering. Then, when quiet had been restored, Governor Folk proceeded.

Governor Folk concluded by introducing Mayor Tom L. Johnson, of Cleveland, as chairman of the meeting. The applause was deafening as Mr. Johnson came forward on the speaker's platform. At this same moment William Randolph Hearst entered the box which had been set aside for him. For two minutes the crowd cheered him without interruption.

When the joint demonstration had but partly subsided, Mr. Bryan, accompanied by his wife, entered the garden and appeared on the platform.

crowd, which had been so free in its cheering and threw their hats into the air, while the women waved handkerchiefs and cheered as loudly as they could. Eventually Chairman Johnson secured comparative quiet and introduced Augustus Thomas, whose every reference to Mr. Bryan called for additional cheers.

Chairman Johnson then arose to introduce Mr. Bryan.

### VIEWS OF MR. BRYAN UPON VITAL QUESTIONS

**Labor**—The workingman's life, liberty and pursuit of happiness should be preserved. It is unjust to give employers absolute control over employees. Differences should be settled by arbitration.

**Tariff**—Protective tariff has been fruitful source of political corruption. Free trade, optional in its details with the president, could be made the most effective weapon, with which to fight the trusts.

**Money**—Mr. Bryan declares that the unlooked for and unprecedented increase in the production of gold has enabled the democrats to present a united front on the money question.

**Trusts**—Merciless war on trusts is recommended to the democrats. Corruption in insurance companies and other corporations is dwelt upon. The democrats should refuse campaign contributions from corporations.

**Congress**—National legislative body should meet immediately after elections—not thirteen months later, as at present, United States senators should be chosen by popular vote.

**Railroads**—The railroads should be made the property of the government. The federal government should control the trunk lines and the various states the local lines. Securing immediate uniformity of rates is favored as temporary remedy.

**Socialism**—Socialism presents a consistent theory, but does not take human nature into account. It would substitute a new disease for the disease from which we suffer. Socialism must be answered with argument, not abuse.

**Injunction**—Government by injunction is an attack upon the jury system and should be opposed. The injunction should be supplanted by arbitration.

**Next Issue**—Paramount issue in next presidential campaign will concern trusts and their control. Democratic motto must be, "A private monopoly is indefensible and intolerable." Provision must be made to imprison, not merely fine, law-breaking capitalists.

**Arbitration**—Mr. Bryan urges that the United States, in common with all other nations, should, before declaring war, submit all international differences to impartial arbitration.

**Income Tax**—The United States must sooner or later adopt income tax. Burdens of government should be divided proportionately among the country's people.

**Eight-Hour Day**—In the interest of humanity, the development of home life and love of family and the progress of the human race, the eight-hour working day should be universally adopted.

**Federal License**—That plank in the democratic platform of 1900 requir-

**Two Men Are Held on Suspicion of Complicity.**

### SIX SHOTS FIRED AT MILNER

Struck Five Times—He Was Being Taken Back to Jail To Get His Clothes—Officers Fail to Identify His Assailant.

Atlanta, Sept. 1.—L. L. Dorsey, son of B. H. Dorsey, the man for whose killing Leon Milner was acquitted Thursday night by a jury at Jonesboro, is under arrest at police headquarters in Atlanta, suspected of being implicated in the shooting of Milner shortly after his acquittal.

A. L. Norris, another kinsman of the dead man, is under arrest at Jonesboro, also suspected of being implicated in the shooting.

L. L. Dorsey was arrested early Friday morning, about 3 o'clock, it is stated, by Officer Bone, at the home of Judge R. T. Dorsey. He was placed under arrest as he started up to the house. A pistol is said to have fallen to the floor just as young Dorsey was arrested. This pistol, when examined later by the officers, is said to have had all chambers loaded. It was a 41 Colt's.

Young Dorsey was arrested as a result of a telephone message from Jonesboro. This message stated that he was wanted on the charge of suspicion in connection with the shooting of Milner at Jonesboro and that he had driven through the country. Officers were immediately sent to Judge Dorsey's house to watch and see if Mr. Dorsey came there and his arrest followed at 3 o'clock.

When seen at police headquarters L. L. Dorsey declined to make any statement of any character. His cousin, Hugh Dorsey, called at police headquarters to see him Friday morning. He had no statement to make.

The shooting of Leon Milner occurred within ten minutes after the jury had brought in a verdict of not guilty. Milner had started from the courthouse to the jail to get his clothing. He was not under arrest at the time. Twenty yards from the jail, while a great crowd swarmed in the square, the firing began. Milner ran at the first shot. He was followed, his assailants firing as they pursued.

Six shots were fired and two took effect one in the hip and one in the arm. Milner finally ran under a negro house, crawling about 50 yards to safety. His pursuers lost sight of him and passed by the place he was in hiding.

Milner is badly hurt but it was stated Friday morning that he would probably recover.

There were many witnesses who saw the shooting and the officers claim to know three men who did the shooting. A third arrest may follow.

Milner was on trial for killing R. H. Dorsey in a fight last December. The quarrel grew out of the alleged fact that Milner had been paying attention to Dorsey's young daughter, and Dorsey objected. Milner denied having been attentive to the girl, but Dorsey claimed to have had a note in his pocket, showing that he had.

**ing corporations engaging in interstate commerce to secure federal license, should become part of nation's laws.**

**Anti-imperialism**—Mr. Bryan declares United States' experiments in colonialism has exposed to ridicule the declaration of independence. He urges home rule for the Filipinos.

**Army Transport Ashore.** Honolulu, Aug. 31.—United States army transport Sheridan is ashore on Borden's point, the southwestern extremity of the island on which Honolulu is located.

**No News of Cruiser Charleston.** Lima, Chile, Aug. 21.—A. M.—No news of the cruiser Charleston, due here Aug. 20th, with Secretary Root and party on board, has been received up to this hour.

### CONNER AGAIN HEADS SOCIETY.

Agriculturists in Meeting at Griffin Choose Officers.

Griffin, Ga., Sept. 1.—The State Agricultural Society Thursday morning elected the following officers:

President, J. J. Connor, of Cartersville; general vice president, R. R. Crittenden, of Shellman; vice presidents, first district, James Blitch; second district, W. D. Hammock; third district, Riderick Leonard; fifth district, A. J. Smith; sixth district, J. T. Williams; seventh district, W. H. Lumpkin; eighth district, J. McC. Bryan; ninth district, J. E. Claud; tenth district, George Gilmore; eleventh district, W. B. Burroughs.

The committee appointed at Albany to prepare a report on the advisability of having commissioner of agriculture for each county recommended the appointment of another committee to prepare a bill to be introduced at the next session of the legislature creating said office. The recommendation of the committee was unanimously adopted and the society pledged itself to work for the passage of the bill.

The morning session of the society was greatly entertained, instructed and interested by an address of Mrs. W. H. Felton, of Cartersville, the other addresses being by Professor C. L. Willoughby, Georgia experiment station, and Dr. L. A. Kline, of the United States department of agriculture.

The afternoon session was very interesting throughout.

William H. Felton delivered a very able and entertaining address on "Agricultural Experiments."

### U. S. ARMY TO BE INCREASED

General Order Provides for Several More Men.

Washington, Sept. 1.—The enlisted strength of the army is slightly increased in a general order issued at the war department Thursday. The strength of the different branches of the service will be as follows:

Total number of enlisted men in cavalry, 12,240; artillery corps, 328; coast artillery, 13,298 and torpedo companies, 527; field artillery, 4,012; infantry, 489; engineers, 1,282; additional strength, 1,961, making a total enlistment in the line of the army of 58,123. To this is added for the staff departments 4,387, making a total of 62,510.

The enlisted strength under the last general order issued Feb. 6 was 60,798. The increase is mainly to carry into effect the recent executive order of the secretary of war, requiring that each cavalry and infantry regiment shall have a detachment of machine gun experts. Recruiting parties and depots, which in February had assignments of 500 men, are to be increased to 1,300 men. Troops will be taken away at barracks at Columbus, O., and at several other cities which have been used as recruiting depots, and hereafter the recruits themselves will constitute the garrisons.

### Parker Will Head Bar Association.

St. Paul, Minn., Aug. 31.—Judge Alton B. Parker, of New York, was the sole nominee of the general council of the American Bar association for the office of president for the next year. At a meeting of the committee previous to the general session the following slate was named and which will be acted on later: President, Alton B. Parker, of New York; secretary, John Hinckley of Baltimore, Md.; treasurer, Frederick E. Wadhams, Albany, N. Y.; executive committee, Charles Monroe, Los Angeles; Ralph Breckenridge, Omaha, Neb.; Rome G. Brown, Minneapolis; Walter G. Smith, Philadelphia; Charles F. Libby, Portland, Me. Messrs. Hinckley and Wadhams are the present secretary and treasurer, respectively.

### Troops Refuse Tainted Meat.

Chicago, Sept. 1.—A Tribune special from Indianapolis says that the United States troops in camp at Ft. Benjamin Harrison, made it plain on Thursday that they would not accept as ration the tainted meat and furthermore there were indications of rebellion against the ration. The beef had been taken to the camp in a refrigerator car and had changed color after being exposed to the air for several hours.

## LINCHING OF NEGRO NARROWLY AVERTED

**Only the Quick Action of Officers Saved Him.**

### ASSAULTED FIVE-YEAR-OLD GIRL

Feeling Runs High in Wayne County, Kentucky, and the Officers Will Take Every Precaution to Prevent Mob Violence.

Danville, Ky., Sept. 1.—The quick run of officers from Somerset to this place prevented the lynching of Perry Coperhaver, a negro, who, it is charged, committed a criminal assault on the 5-year-old daughter of Leonard Fairchild, of Wayne county.

The negro was identified by the victim, and a mob quickly gathered.

He was hustled to Somerset, but the mob started to that place from Monticello, and an order from the county judge was given for the transfer of the prisoner to this city.

Feeling is high in Wayne county, and the officers here will take every precaution to prevent mob violence. The victim has recovered.

### Man Struck By Train.

Atlanta, Sept. 1.—A man, thought to be J. M. Gresham, a clerk for R. W. Cassels & Co., wholesale grocers, was struck by a freight train just in front of the Fort McPherson depot at 11 o'clock Friday morning and sustained serious injuries. He was taken to a neighboring house and given medical attention by Dr. Martin. The extent of his injuries are not yet definitely known, though it is probable, from the manner in which he was hit, that they are severe. At the point where the accident occurred two freight trains were passing from opposite directions. Being through trains they were going at rather a high rate of speed. It is supposed that Gresham in attempting to cross the tracks became confused and while trying to get out of the way of one of the engines was struck by the other.

### Want Tariff Raised on Cotton.

Valdosta, Ga., Sept. 1.—Before adjourning, the Sea Island Cotton Growers of Georgia and Florida adopted a resolution asking for revenue raising tariff on Egyptian cotton and also appointed J. O. Varndoe, of Georgia, and T. J. Opleyard, of Florida, as a committee to take up the matter with the representatives of the two states. The association also made a strong demand for better warehouse systems, houses to be built with a view of lessening the insurance rates. In an address by President Harvie Jordan, the convention was started by a statement being made that the southern farmers pay enough insurance in two years to build warehouses to house the year's crop.

### Created Profound Sensation.

Philadelphia, Sept. 1.—The statement of Receiver Earle, of the Real Estate Trust company, of this city, that Frank K. Hipple, late president of the concern had stolen securities valued at \$65,000, and that the lending of \$5,000,000 to Adolf Segal on insufficient security amounted to as much as the theft, created a profound sensation throughout the city. The revelation was an especially cruel blow to his many intimate friends, most of whom are prominent in the Presbyterian church, either as clergymen or laymen.

### Drinks Acid in Store.

Ft. Worth, Tex., Sept. 1.—Brushing aside the druggist who had just sold him ten cents' worth of carbolic acid, J. T. Sandridge, of San Antonio, Tex., drank the contents of the phial and died, in a local drug store in ten minutes. Druggist A. D. Abbehear, asking what the man contemplated, struggled with him but in vain.

### Hanging to a Ragged.

Ridgeville, Ind., Sept. 1.—Jacob H. Byers, about 55 years old, was found hanging to a rafter of his barn. He had been in poor health for a long time. He leaves a wife and one child.

The interior of the garden was a waving sea of color. Every person in the audience had been provided with a miniature American flag and every cheer from 20,000 throats was accentuated by the waving of 20,000 tiny flags bearing the stars and stripes.

When Mr. Bryan entered the hall the proceedings which already had been begun were brought to a temporary pause while for eight minutes volley after volley of thunderous cheers rolled through the great building. When Chairman Tom L. Johnson in his introduction of Mr. Bryan referred to the guest of the evening as "the first citizen, if not the first official of the land—not yet the first official," and Mr. Bryan rose, the great gathering broke out in unrestrained cheering, while the band played "Hail to the Chief." So touched was Mr. Bryan by the welcome that as he stood waiting for the cheers to subside his eyes filled with tears and he strode nervously from side to side of the narrow platform.

When Mr. Bryan uttered his first words "Mr. Chairman," there was tremendous applause.

"Ladies and Gentlemen," he continued, after three cheers for William J. Bryan, had been called for and given: "how can I thank you for this welcome home? My heart would be flint, indeed, if it were not touched by your demonstration. My heart would be ungrateful beyond measure if it did not in return consecrate itself to your service."

"It was kind of the Commercial Travelers' Anti-Trust League to propose this home-coming reception. It was kind in Governor Folk to come all the way from Missouri to bring the testimony that he might join in this reception. It was kind of Tom Johnson, that example of moral courage, that we so much need in this country to lend his presence to this occasion; kind in the officers of this league to bring you here; kind in you to so fully recompense me for any danger that I have encountered or any sacrifice that I have made in being absent so long from my native land. A LIGHT BOND WAS REQUIRED

Mr. Lynch Released Upon His Own  
Recognizance, and Reported to U. S.  
Commissioner at Jacksonville Satur-  
day, Accompanied by His Attorney.

John P. Lynch of Fairbanks, prop-  
rietor of the big sawmill and lumber  
plant at that place, was arrested by  
Deputy United States Marshal Bundrix  
of Jacksonville Friday upon a charge  
of peonage, which was the result of a  
complaint made by an Italian laborer,  
who testified before the commissioner  
to the effect that he had been forcibly  
held in bondage and made to work,  
when he desired to leave the place.

Mr. Lynch has had a number of Ital-  
ians at work at his mill, but this peon-  
age charge was certainly a surprise to  
him, as he states that he never forced  
or endeavored to force any person to  
remain in his employ against their  
will.

Immediately after the arrest Mr.  
Lynch, with the officer, drove to  
Gainesville, where Mr. Lynch had a  
consultation with his attorney, Robt.  
E. Davis. He was afterward released  
upon his own recognizance, and re-  
ported to Jacksonville, with Attorney  
Davis, Saturday morning.

After having been arraigned Mr.  
Lynch was placed under a bond of \$500  
for his appearance at the next term of  
the United States Court, and was re-  
leased.

Mr. Lynch has always been most lib-  
eral with his employees, and those best  
in a position to know declare their be-  
lief that there is nothing in the case.  
It may be possible that the Italian  
making the charge became dissatisfied  
or disgruntled, and after leaving the  
employ of Mr. Lynch preferred the  
charge. At any rate, the matter does  
not assume a serious nature, when the  
defendant was required to furnish a  
bond of only \$500 for his appearance.

### WILL SEND MANY BOYS.

South Florida Will Do Her Share for  
University of Florida.

T. J. McRae has returned from  
South Florida, where he has been for  
the past few days on business.

Mr. McRae has been down on the  
Charlotte Harbor division of the At-  
lantic Coast Line, where he declares  
the country is the most prosperous he  
has ever seen. He states that the  
people of that section are heart and  
soul with Gainesville on the Universi-  
ty proposition, and that many young  
men from the Charlotte Harbor divi-  
sion, from Bartow to Fort Myers,  
would be students of the State college  
at the coming term.

"I intended to keep a tab on the  
number which would come," remark-  
ed Mr. McRae, "but there were so  
many that I really lost the number, in  
my enthusiasm. I remember that I  
counted fifteen from Arcadia, three  
from Zolfo, some from Punta Gorda  
and several from Fort Myers, who  
positively told me they would attend  
the University, and that they would  
be glad at an opportunity to attend  
the institution in Gainesville."

Mr. McRae states that the people of  
South Florida are very prosperous,  
and the merchants and farmers alike  
are happy and contented.

### BAUKNIGHT—DRAKE.

A Pretty Wedding Was Solemnized at  
Archer Thursday Evening.

Archer, Sept. 1.—The marriage of  
Miss Alda Bauknight of this place and  
Edward Drake of Brooksville, which  
took place at the Methodist church  
Thursday evening at 8 o'clock, was a  
very pretty wedding. Rev. F. H.  
Craighill of Gainesville uniting the  
couple in wedlock.

The church was beautifully de-  
corated and was comfortably filled by  
invited guests. Quite a number of  
friends and relatives of the contract-  
ing parties were present.

Mr. and Mrs. Drake and daughter,  
Gladys, of Ocala, and brother of the  
groom were present. Mr. Herring of  
Brooksville, also Frank Bauknight,  
brother of the bride, who has been  
living in Jacksonville, also Mrs. Frank  
Taylor of Jacksonville, were present.

After the ceremony and after the  
wedding gowns were exchanged for  
traveling costumes, the parties left in  
carriages for Gainesville to take the  
train for Ocala and Brooksville. The  
latter place will be the home of the  
newly married couple.

The couple were the recipients of  
many valuable, useful and beautiful  
presents.

Letter to Sheriff Fennell,  
Gainesville, Fla.

Dear Sir: Our agent ought to sell  
nine-tenths of the paint of his town  
and region; no use to try for the other  
tenth. The proportion of men, who  
won't take good advice, and use the  
least-gallons paint, is about one in ten  
among even owners of houses and  
stores and shops and barns and fences.

One man in ten will buy a gold brick  
or green goods, if he has the money  
and gets a good chance.

Devco at \$1.75 a gallon is better than  
gold; adulterated and short-measure  
paints are green goods and gold bricks.

Devco saves half, more or less, of the  
labor and wages of painting; it is all  
paint; full strength and full measure.  
There is no other such paint within ten  
per cent. Ten per cent of labor and  
paint is worth saving; and ten is the  
least. There are scores of paints that  
throw-away half of both gallons and  
labor on whitening, china-clay, ground  
stone, barytes, benzine, water—all  
they are good for is to make gallons of  
nothing and look like paint in the  
can; more gallons to buy and more gal-  
lons to pay for putting-on—gold bricks  
and green goods. Here's how they work:

Judge I. D. Fairchild owns two  
houses exactly alike in Lufkin, Texas.  
J. H. Torrence painted both houses;  
one Devco, 15½ gallons; the other  
with another paint sold at same price;  
26 gallons. That 26 gallon paint is  
weak and 15 per cent whitening; that's  
why it took 9½ gallons more.

Yours truly,  
F. W. Devco & Co.,  
New York.

P. S.: The S. J. Thomas Co. sell  
our paint.

### \$30,000 Fire Loss.

San Francisco, Sept. 1.—Fire early  
Friday morning at the Fulton Iron  
Works caused a \$30,000 loss. The fire  
department hurriedly responded to the  
alarm, but owing to the distance to  
be covered to reach the works, the fire  
had gained great headway, and for a  
time the works, valued at over \$2,000,  
000, were threatened with total de-  
struction. The fire, which started in  
the foundry, an isolated building, was  
discovered at an early stage by the  
watchman. It was only confined to  
that portion of the plant, although the  
pattern works were badly damaged.  
The foundry was completely destroyed  
before the fire was brought un-  
der control.

## OLD SORES OFTEN LEAD TO CANCER

Whenever a sore or ulcer does not heal and shows signs of becoming  
chronic, it should arouse suspicion, because many of these places lead to  
Cancer. It may appear as an ordinary sore at first, and is given  
treatment as such, with some simple salve, wash or plaster, with the hope  
that the place will heal, but the real seat of the trouble is in the blood and  
cannot be reached by external remedies, and soon the sore will return. After

## THE DUTTON GINNEY WILL BEGIN MONDAY

Large Force of Hands Will be Employed to Turn Out the Staple.

IS UNDER NEW MANAGEMENT

Dutton & Co., Having Sold to Mr. Rivers of Starke, New Managers and New Methods Have Been Adopted. Full Force to be Employed.

Beginning with Monday, there will be another of the manufacturing industries which operates in the fall, opened up, being the Dutton ginney, which is among the largest and most important of its kind in the State.

Several months ago, for reasons best known to themselves, H. F. Dutton & Co., who have been operating gins in this city for the past quarter of a century, decided to relieve themselves of this branch of the cotton business. The firm sold to Mr. Rivers of Starke, also a prominent cotton man, and it was not known for several weeks whether Mr. Rivers intended to operate the gins or not. While Dutton & Co. declared their intention to continue the purchase of cotton in the seed, the matter of the operation of the gins has been unsettled.

All arrangements have been made now, however, and on Monday morning the gins will be started in full operation. Several hundred bales of cotton have been purchased, and things will be lively about the Dutton ginney from now on throughout the season, as there has been ample options and purchases to keep the plant moving. The plant employs from seventy-five to one hundred hands, so it may be imagined the amount of money released every week by this concern.

The enterprise this season will be under the direction of Adamson & Blake, both of whom are practical ginners and machinists. The plant will be operated upon as large and extensive scale as has formerly been the custom, and at the end of the season it will be shown that the pay-roll has been as large as in former years.

### Denies the Allegation.

Some one named S. L. Carter from one of the southern counties has made application for a permit to sell liquors in Marion county. Judge Syd L. Carter of this city most emphatically denies that he is the party and says "that the busybodies so industriously circulating the report ought to have sense enough to know that there can be two people with the same initials in a State as large as Florida."

The funeral of Mrs. Harry Lee Jarvis, the sad death of whom occurred suddenly Thursday afternoon, was held from the First Presbyterian Church, of which deceased was a member, Saturday afternoon. The services were conducted by Rev. E. W. Way, formerly pastor of this church but now of Dalton, Ga. Mr. Way was a great friend of the deceased and her family, having performed the marriage ceremony of Dr. Jarvis and Miss McFarland several years ago.

The services were largely attended and the floral offerings were plentiful, which went as evidence that the deceased was held in the highest love and esteem by a large number of friends.

The interment was in Evergreen cemetery, and a large number of relatives and friends followed the remains to their last resting-place.

The bereaved mother, husband and children have the sympathy of the community in this hour of bereavement.

### A Rare Coin.

W. S. Jackson and J. M. Turner of Lake View were among the visitors to this city Saturday. Mr. Jackson has in his possession a very rare coin, being a silver piece struck by King George III of England, commemorative of his marriage to Queen Charlotte, September 10, 1761, being now 145 years old.

The coin, which is about the size of the American half-dollar, is well preserved. It is a family heirloom, having been in the Jackson family for more than a century.

Y. Mr. Waters had not been to his old home for many years, and while his visit was in the nature of a Rip Van Winkle story, there being thousands whom he did not know, it was more pleasant for the fact that he met many friends of his boyhood days. At any rate, we will take his word that he had a "jolly good time," and is willing to go back to his farm, which is one of the neatest in the county, where he will revel in the contentment of country life for the next few years.

The members of the Board visited the University grounds and made a thorough inspection. They expressed themselves as well pleased with the progress being made.

### A FINE LEMON.

Thos. McCredie Has a Grove Producing Fruit of Enormous Dimensions.

W. G. Richardson, a special representative of the Live Stock Insurance Company of Madison, has returned from Micronopy and other points, where he has been in the interest of his concern.

Mr. Richardson brought with him a lemon of the Ponderosa variety, which measured about nine inches in circumference, and which it is said will grow to the enormous size of four pounds. The fruit was taken from a tree on the grove of Thomas McCredie. The grove is bearing profusely, and it is said that this will prove a revolution in the lemon industry, as the fruit has all the virtues and qualifications of the Italian lemon.

Mr. McCredie has a fine grove comprising several acres, and expects to make a good thing from the yield.

Colonel deMontmolin, who is a member of the Governor's staff and one of the most prominent military men in the State, has many friends throughout Florida who will be delighted to learn that he is a "papa," and congratulations are in order. No man in the State military service is better known or more popular than Colonel deMontmolin.

## PUT A PREMIUM ON BEAUTY.

The Sun commends the following, which is taken from The St. Augustine Record, to the Gainesville Board of Aldermen:

"Improvements of a certain character should not militate against the property involved by raising the assessment. This tends to discourage the efforts to beautify private premises. Ornamental plants, neat lawns and an occasional coat of paint all contribute to enhance the appearance and value of property, but the general public as well as the owner of the improved place enjoys its attractive appearance. Rather impose an additional tax on the neglected old eyesores that detract from the city's appearance and award a premium for such adornments that render homes an ornament to the city. Let it be understood that the assessed value shall not be increased for such improvements as those mentioned, and the good taste of our citizens will soon be in evidence in every part of the city."

Courage and effort alone are required to insure victory to the worthy. In the struggle of life the good is the more powerful. It is only when the giant loiter by the wayside that evil creeps upon him and inflicts its wounds. "Three is the army who hath his quarrel just" is not an idle adage.

True politeness is accompanied by the calm self-possession which belongs to a noble simplicity of purpose, and unless you cultivate it and exercise it upon all occasions and toward all persons it will never be a part of yourself.

A Chicago girl succeeded in throwing a baseball 204 feet, and that is throwing some, and if you don't believe it try it yourself.

"Nothing succeeds like success." That's a false philosophy. Some men's real success is but the story of their appalling failure.

## QUESTION OF PASSES.

That section of the Inter-State railroad rate law relating to the giving of free passes by common carriers is as follows:

"No common carrier subject to the provisions of this act shall, after Jan. 1, 1907, directly or indirectly, issue or give an interstate free ticket, free pass, or free transportation for passengers, except to its employees and their families, its officers, agents, surgeons, physicians and attorneys at law; to ministers of religion, traveling secretaries of railroad young men's Christian associations, inmates of hospitals and charitable and eleemosynary institutions, and persons exclusively engaged in charitable and eleemosynary work; to indigent, destitute, and homeless persons, and to such persons when transported by charitable societies or hospitals, and the necessary agents employed in such transportation; to inmates of the national homes or state homes for disabled volunteer soldiers, and of soldiers' and sailors' homes, including those about to enter and those returning home after discharge, and boards of managers of such homes; to necessary caretakers of live stock, poultry and fruit; to employees on sleeping cars, express cars and to line-men of telegraph and telephone companies, to railway mail service employees, postoffice inspectors, customs inspectors, and immigration inspectors; to newboys on trains, baggage agents, witnesses attending any legal investigation in which the common carrier is interested, persons injured in wrecks and physicians and nurses attending such persons; Provided, that this provision shall not be construed to prohibit the interchange of passes for the officers' agents, and employees of common carriers and their families; nor to prohibit any common carriers from carrying passengers free with the object of providing relief in cases of general epidemic, pestilence or other calamitous visitations.

"Any common carrier violating this provision shall be deemed guilty of a misdemeanor, and for each offense on conviction shall pay to the United States a penalty of not less than \$100 nor more than \$2,000, and any person other than the persons excepted in this provision, who uses any such interstate free ticket, free pass, or free transportation, shall be subject to a like penalty."

## DEATH OF MR. MURCHISON.

F. M. Murchison is dead. He was not widely known in Florida, though the editor and publisher of a queer little metaphysical monthly paper, the name of which he changed several times. His home was at Langford, where he published his sheet, but he died in Deland, where he was in the habit of working in the printing office a week or two each month to get money to enable him to print his own paper, which he did apparently for the pleasure he drew from airing his peculiar ideas. He was an aged man, and his death was due to paralysis. Like a number of other men of the same class, Murchison was something of an enigma, his mental makeup being on different lines from the general average, but now that it is all over with him he will sleep just as quietly and comfortably as if he had been loved and honored of a nation and laid in his resting place by a multitude of weepers—Tampa Times.

Mr. Murchison was employed on The Sun several years ago, and worked very steadily until he saved sufficient money to purchase material with which to print his little paper. He was exceedingly quiet in disposition and was an excellent compositor.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by druggists, etc. Take Hall's Family Pills for constipation.

## SERMONETTES.

You can't fill a barrel until you stop the leak.

A country can never be greater than her sons.

A man in a shallow well don't need a long rope.

Even a whispered word can fly a thousand miles.

However long the river flows, at last it will reach the sea.

It is so easy to rejoice in afflictions, if someone else has them.

Keep on digging, old fellow—there's a Klondike in your brain.

If you don't see the way out of the woods blaze your own way.

Watch out that the under-dog is not on top next time. It might be so.

It won't pay to break the bough of the tree that has sheltered you.

Everything in this world is not blue because you happen to be wearing a pair of goggles.

The shadow may be the price we pay for sunshine. Tears are the interest on the loan for a little while.

This trait—cowardice, and it's so common—finds its origin in the consciousness that we are not what we seem to be.

If the elevator leading to the top floor gets stuck, try the stair-way. It may not be quite so easy, but it leads to the top floor as well.

The man who calls another a dirty cop, and in turn is put down as a blasted fool, ought to confine themselves to questions that are disputed.

There is much involved in the viewpoint. Two men agree not because the objects of pursuit become the same, but because their viewpoints correspond.

Every successful financier will tell you that the one great effort of his life was the saving of the first hundred dollars. In that feat he learned the art of economy.

We're doomed when we admit a vast army that proposes to lug over here the institutions, language, and habits of a strange and distant land. To make this country free enough for that is making it too free for the rest of us.

The mother hungering for the love of her baby a month old bends over it with a smile. Her eager heart is gladdened by the answer rippling over its dimpled cheek. She has laid a telegraphic cable from the continent of conscious humanity to this little island—and the very first message flashed under the sea is one of love.

We've got a skeleton in the closet and we take the trembles for fear the old thing will stalk right out when we've got company. It would be something fierce if a thing like that were to happen. The trouble with these old hyps is that their closet-skeletons tag right along behind them. Of course they can't see the old stack of bones—but everybody else can.

On one of Napoleon's triumphal marches through Paris one of his marshals called attention to the cry: "Long Live the Emperor!" "Ah!" said he, "It would be the same if I were on the way to the guillotine." How human-like! Thousands who built a high-way of palm-branches for the son of Mary when he entered Jerusalem, afterwards stood in Pilate's court and cried: "Release Barrabas!"

## BAD BREATH

"For months I had great trouble with my stomach and used all kinds of medicine. My tongue had been always so green as grass, my breath having a bad odor. I was once told to use Chamberlain's Catarrh Cure and after using it once I felt much better. I am now so well that I can eat anything I like and my breath is sweet. I shall recommend it to any one suffering from such trouble."—Chas. H. Hays, 114 E. 11th St., New York, N. Y.

## NEGRO DEMANDS TO BE SERVED BEFORE WHITES.

Roanoke, Va., Aug. 31.—Michael D. Custy, a well known saloon keeper, was shot and killed by a negro named Paul Preston, in his place of business at Bedford City, Virginia. The negro escaped and is being hunted by a posse. Bloodhounds will be put on the murderer's trail as soon as they arrive from Suffolk. The citizens of Bedford City have offered a reward of \$500 for the capture of Preston. Word comes that the slayer of Custy is still at large and that if he is taken he will probably be lynched by his captors.

Bedford City is in a great state of excitement over the cold-blooded murder, and every effort is being made to catch the negro.

It is said that Preston went into the saloon of Custy and because the barkeeper would not serve him, and do it before waiting white men who were standing at the bar, he drew a revolver and fired two shots at Custy both of which passed through Custy's heart. Custy was dead when others in the place reached him. Preston ran into the street and jumped into a hack, giving order that the vehicle be driven away. The driver refused, and Preston seized the lines and, whipping up the horses, made his escape.

Custy lived in Roanoke for a number of years. He was a native of Winchester, Va., was 40 years of age, and unmarried.

This is an increase of 17 in the number of killed and 52 in the number injured over those reported in the preceding three months.

The number of passengers and employees killed in train accidents was 274, as against 320 in the preceding three months, a decrease of 46 in the number killed.

The total number of collisions and derailments was 3,490 (1,921 collisions and 1,569 derailments), of which 289 collisions and 167 derailments affected passenger trains. The damage to cars, engines and roadway by these accidents amounts to \$2,924,785.

## SERIOUS WRECK OF PACIFIC EXPRESS

Fifteen Passengers Were Seriously Injured—Engine Plunged Into River.

Fishkill Landing, N. Y., July 29.—Pacific Express Train No. 37, of the New York Central and Hudson River Railroad, which left the Grand Central station in New York at 9:32 o'clock tonight, was wrecked shortly before midnight a short distance above Chelsea, and eleven miles below Poughkeepsie, by running into a landslide which had been swept down from a high embankment by a terrific rain-storm this afternoon. The engine of the flyer was thrown from the rails and plunged into the river.

## TWO YACHTS CAPSIZED.

Eight Persons Lost Their Lives After Thrilling Experience.

Anglesea, N. J., July 29.—Two yachts capsized in Hereford inlet bar off here today and so far as can be ascertained tonight eight persons lost their lives. There were 32 persons on one yacht, of whom seven were lost, and 12 on the other, all but one of whom were saved.

That not more fell victims to the rough sea was due to the heroism of Capt. Ludlam of the Hereford inlet life saving station and a crew of five men. It was at first thought that from 14 to 28 persons had been lost, but after an investigation the coroner tonight stated that he believed only eight were lost.

## 20 PERSONS KILLED IN SEABOARD WRECK

By Blunder Trains Meet in Terrible Collision—Both Demolished.

Raleigh, N. C., July 24.—A collision between a freight train and a regular passenger train on the Seaboard Air Line Railroad at 8:40 Sunday night, three miles south of Hamlet, resulted in the death of four trainmen and sixteen others, and the injuring of twenty-four.

The bodies of the dead are being prepared for burial at Hamlet and Rockingham, while the injured have been removed to Charlotte and placed in the hospital there. The wreck was due to the failure of the regular passenger train to receive orders at Rockingham.

## THOUGHTLESS TRAPPERS.

## Torture to Animals and Ruthless Destruction of Game.

People who have not seen can form no idea of the suffering trappers cause nor of their ruthless destruction of game. Nothing escapes them. Even the squirrels are sacrificed to bait traps for marten and fisher, and not only the squirrels, but all kinds of birds, whether game or song birds.

In trapping musk, otter, beaver and a few other fur bearing animals the trap is nearly always set near the water, where the animal when caught can drown itself, thus ending its suffering.

But with bear, marten and fisher it is different. The bear must drag a heavy clog about until it catches in some root or bush. There he must wait until the trapper comes to kill him, and this in some cases is not for days. The bones of the leg are almost invariably broken by the trap, and the leg swells to incredible size. One trapper in one day shot nineteen large blue grouse merely to try a new rifle. The birds were nesting. He had no use for them, and not one did he even bring to camp.

Years ago in British Columbia an old trapper camped near our bear hunting party. He shot everything he could find, even little ducks and marmots. A goat he killed fell over a cliff, and as it was harder to recover it than to shoot another he shot another. He was trapping beaver out of season and boasted of having caught one that was about to become a mother.

I have seen the spot where a bear fast in a trap had been caught for more than a week in a thicket through which it was impossible to drag the trap and clog. I once knew an old French trapper who shot seventy-three moose and elk in one winter for bear bait for the spring catch. I asked why he killed so many. He said that he wanted a big stink in the spring so as to bring the bears around. All of the animals he had slaughtered for a spring stink were shot with a revolver, for they were now bound and could not escape. He told me that he dropped five big elk in one pile. This frightful destruction by trappers has exterminated the game. World's Work.

## The Breath of Life.

It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." Guaranteed by all druggists. Price 50c and \$1.00. Trial bottle free.

## Foods That Make You Fat.

Potatoes, peas, baked beans, fats, sweets—such as puddings, pies and cake—ale, beer, sweet wines and even water, when taken with meals, all conduce to obesity. But in lieu of the foregoing flesh producers one may satisfy hunger with a moderate amount of lean meats, poultry, fish; with fruits (excepting figs, dates and bananas) and with vegetables, such as spinach, string beans, eggplant, celery, beets, etc. I would recommend also that those overfat from a too rich and too generous diet abstain from much liquid at meals, but that they drink copiously of water between meals to flush their systems. Water, be it remembered, is an excellent purgative.—G. Elliot Flint in Outing.

## Starving to Death.

Because her stomach was so weakened by useless drugging that she could not eat, Mrs. Mary H. Walters of St. Clair St., Columbus, O., was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters, with the wonderful result that improvement began at once, and a complete cure followed." Best health tonic on earth. 50c. Guaranteed by all druggists.

## Not Buried Yet.

"There has never been any decisive action on that bill you introduced year after year."

"No," answered the statesman. "That bill has been of such value in giving me prominence that I should rather regret to see it removed from active controversy and buried in the statute books."—Washington Star.

## Well Worth Trying.

W. H. Brown, the popular pension attorney of Pittsfield, Va., says: "Next to a pension, the best thing to get is Dr. King's New Life Pills." He writes: "They keep my family in splendid health." Quick cure for headache, constipation and biliousness. 25c. Guaranteed at all druggists.

## POINTED PARAGRAPHS.

Don't save your money and starve your mind.

Vigorous thought must come from a fresh brain.

Tens of thousands of people fail because they love their ease too much.

"Keeping alive that spirit of youth," Stevenson used to say, was "the perennial spring of all the mental faculties."

A man may build a palace, but he can never make of it a home. The spirituality and love of a woman alone can accomplish this.

If we are contented to unfold the life within according to the pattern given us we shall reach the highest end of which we are capable.

By proper training the depressing emotions can be practically eliminated from life and the good emotions rendered permanently dominant.

Every time you crowd into the memory what you do not expect it to retain you weaken its powers and you lose your authority to command its services.—Success.

It is the best remedy for coughs and colds. J. W. McCollum & Co.

## John Wesley and Beau Nash.

In a book about Bath is set forth a story about John Wesley. Beau Nash had told Wesley that his preaching in the street was not only contrary to law, but it "frightened people out of their wits."

"Sir," said Wesley, "did you ever hear me preach?"

"No," said the master of ceremonies. "How then can you judge of what you never heard?"

"By common report," said Nash stoutly.

"Common report is not enough. Give me leave, sir, to ask, is not your name Nash?"

"My name is Nash."

"Sir," said Wesley, "I dare not judge of you by common report."

## GERMAN GLEE CLUBS.

Early Days of the Saengerfests in This Country.

In the early days of saengerfests in this country they were held annually. The third saengerfest was held in New York in 1852, and many Newark Germans attended. Below are given extracts from the Newark Daily Advertiser, printed at the time:

June 10, 1852.—The German glee clubs of New York will celebrate the third annual festival in New York this year on the 19th to 22d of June. The New York Journal of Commerce states that the glee clubs from abroad will be received by the New York clubs and honored with a torchlight procession. The principal performance will take place at the Academy of Music, Fourth street, when the choruses will be sung by over 1,200 male voices, accompanied by an orchestra of 100 pieces. On the 22d will be held a picnic on the Bloomingdale road, opposite Striker's bay.

June 22.—Third musical jubilee of German singers, Saturday to Tuesday, 19th to 22d. The execution of the "Magic Flute" overture by 1,200 voices was very uncommon and surprising by the New York clubs and was received with great applause. The Eintrachts of Newark sang "Wallisicher Schiffergesang" in a distinguished manner. But the most marked performance was Martin Luther's "Ein Feste Burg Ist Unser Gott," arranged by Flnke. We felt immediately what religious music really is—how grand, solemn and sublime such a hymn is when performed by a large orchestra and hundreds of voices. It was something to be remembered long. Kossuth was present during an intermission and was cheered.—Newark News.

## THE SERPENT'S VENOM.

Mohammedan Legend of the Origin of the Tobacco Plant.

The prophet was taking a stroll in the country when he saw a serpent, stiff with cold, lying on the ground. He compassionately took it up and warmed it in his bosom. When the serpent had recovered it said:

"Divine prophet, listen. I am now going to bite thee."

"Why, pray?" inquired Mohammed.

"Because thy race persecutes mine and tries to stamp it out."

"But does not thy race, too, make perpetual war against mine?" was the prophet's rejoinder. "How canst thou, besides, be so ungrateful and so soon forget that I saved thy life?"

"There is no such thing as gratitude upon this earth," replied the serpent, "and if I were now to spare thee either thou or another of thy race would kill me. By Allah, I shall bite thee."

"If thou hast sworn by Allah, I will not cause thee to break thy vow," said the prophet, holding his hand to the serpent's mouth. The serpent bit him, but he sucked the wound with his lips and spat the venom on the ground. And on that very spot there sprang up a plant which combines within itself the venom of the serpent and the compassion of the prophet. Men call this plant by the name of tobacco.—Conte Arabe.

## WAS A VERY SICK BOY

Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"When my boy was two years old he had a very severe attack of bowel complaint, but by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy he brought him out all right," says Maggie Hickox of Midland, Mich. "The remedy can be depended upon in the most severe cases. Even cholera infantum is cured by it. Follow the plain printed directions and a cure is certain. For sale by all druggists."

## Reading on a Train.

When you travel back and forth into every day you no doubt read paper or a magazine on the train. This is not, indeed, the best practice for the eyes, it seems a pity to waste so much time which might be spent to good account. Much of the annoyance which comes from train riding is due to the jolting of the train, which continually knocks the printed line out of focus with the eye. It can be in some degree obviated by holding a card or some other object against the line to be read and moving it steadily downward while reading. This acts as a guide to the eye and helps to keep the sight fixed. Those who have tried it say that it wonderfully assists to decrease the difficulty of reading while in motion.

## Pale Complexion and Bright Eyes.

Most cases a sallow, blotched complexion and dull heavy eyes are due to poor digestion and an inactive liver. Orino Laxative Fruit Syrup cleanses and stimulates the liver and bowels and makes the complexion clear and clear. Orino Laxative Fruit Syrup does not nauseate or gripe and is pleasant to take.
